Geo. B. Newton & Co.

Anthracite and Bituminous Coal and Coke.

Office, 308 Walnut St.

Philadelphia.

Philadelphia, Oct. 19th, 1887.

Dictated

Hon. Daniel M. Fox,

Sup't, Mint of the United States,

Philadelphia, Penna.

Dear Sir:-

Your favor of 17th instant is received, being your order for "Highland" Broken coal, to be supplied at the the Mint for the balance of the fiscal year.

As you are probably aware, the mines in the Lehigh region, among them the "Highland" colliery, have been idle on account of a strike, which still continues, for five or six weeks. We have not as much of this coal on hand as we should have had if the contract for supplying the Mint had been awarded to us last June. We will send the coal, as you may desire, as long as our present supply lasts, which may be until work is resumed in the Lehigh region.

Yours truly,

Geo B. Newton & Co
